The attack highlights a serious escalation in Iran's war against Israel.

[Pentagon: 'Rising Chinese Military Has Taiwan in Its Crosshairs'](#)

China is "on the verge of fielding some of the most modern weapon systems in the world. In some areas, it already leads the world." That was a warning from the latest report by the United States Defense Intelligence Agency.

The report said that China has made major military advancements and developed new weapons technologies as it works to boost its ability to wage war over places such as Taiwan. "Beijing's long-standing interest to eventually compel Taiwan's reunification with the mainland and deter any attempt by Taiwan to declare independence has served as the primary driver for China's military modernization," the report said.
